Introduction to CIP

Sameer Ahmad

Cyber Security Intern at NullClasses | Threat Detection | Network
Management
Aligarh, Uttar Pradesh, India

Summary

As a final year student at Shri Varshney College, Aligarh, my passion
lies in ethical hacking and cybersecurity. Skilled in cybersecurity
practices and network defense, I focus my abilities on improving my
problem-solving skills, especially within cybersecurity. Competitive
programming is both a challenge and an educational experience for
me. I take great pleasure in discovering new technologies and using
them in innovative and ethical ways to strengthen digital systems
against hostile attacks.

Experience

NullClass
Cybersecurity Intern
July 2024 - Present (1 month)

Engage in hands-on cybersecurity projects at NullClass, focusing on integrity
and confidentiality.
Meet deadlines and performance criteria through flexible work arrangements.
Gain practical experience in real-time project management and remote work
environments.
Develop essential skills in cybersecurity, confidentiality management, and
ethical standards adherence.

Volbit
Cyber Security Intern
July 2024 - Present (1 month)

Conduct security assessments to identify vulnerabilities such as SQL injection,
XSS, and CSRF.
Provide detailed reports with findings and recommendations.
Set up and maintain a network security monitoring system using tools like
Wireshark or Snort.
Analyze network traffic for suspicious activities and create alerts for potential
threats.

Education

Shri Varshney College

Bachelor of Science - BS, Computer Science · (September 2022 - June 2025)
